KUCHING: What kitchen style to choose– classic or modern?

Nowadays, classic does not mean old fashioned. Signature Kitchen characterises classic as timeless elegance and originality, with a tasteful touch of opulence in its latest collection – ARTE.

ARTE represents ‘classic’ in a modern composition. The purity of the white high gloss surfaces exudes lightness while the artistic veins of the white marble quartz lend an air of classicism; achieving a timeless and unique look to any home. Elegant tall units combine functionality with style.
